

# MENU DEL DIA

Francisco Franco was the dictator of Spain between 1939 – 1975, best known for overthrowing the Second Spanish Republic during the Spanish Civil War.

Notorious for controlling the people inhumanely with the help of Nazi Germany and fascist Italy during the second world war, he destroyed livelihoods and businesses during his tenure and was naturally unpopular among the masses.

When he died in 1975, the monarchy and the Spanish democratic republic joined forces to take back the country and succeeded.

The rebuild began and with the new government in power, the people rejoiced by creating a culture where the mass would celebrate with their families at local cafes and restaurants. And so came about, Menu Del Dia, a sustainable and affordable way to eat after the economy was hit so hard during Franco's tenure.

Menu Del Dia consisted of a number of courses and drinks at an affordable price.

The meals came as shared plates and would change regularly. To this day Menu Del Dia is found right throughout Spain and represents the relevant food culture of each respective region.
