BOOK OF DRINKS

Our collection of booze is built towards the Iberian Peninsula with a strong focus on Spain, without neglecting close neighbours in Europe or failing to represent the local scene that produces some of the best wine in Oz.

We hope you like a drink as much as we do.

RESERVE glass list

At Duende we're committed to providing our guests with a vast array of exciting beverage options. We also love a gadget, so we've combined the two to bring you this – our premium selection of wines by the glass.

Each glass is poured through argon gas using the Coravin™ wine-save system, to ensure every drop is preserved. The system works by infiltrating the bottle via a hypodermic needle through the cork. When the needle is removed, the cork is resealed, preventing any oxygen from entering the bottle. Thus, we can offer you some very special wines to try by the glass at accessible price points!

Ask our knowledgeable team if you wish to know more about any of the wines in the range, or the Coravin™ system.
